Level 4	●	●	●	●	●	●	●	●
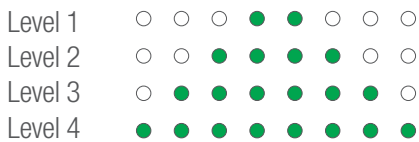

The volume can be set as follows (ascending):

Level 1	●	○	○	○	○	○	○	○
Level 2	●	●	○	○	○	○	○	○
Level 3	●	●	●	●	○	○	○	○
Level 4	●	●	●	●	●	●	○	○
Level 5	●	●	●	●	●	●	●	●

KEY LOCK FUNCTION

Press the [keylock] key for approx. 2 seconds. This will cause the status display to flash; when it is permanently green, the keys are locked. To unlock the system, press the [keylock] key for 2 seconds again and wait until the status LED goes off. The keys are then ready for use again.

CLEANING

You can clean the glass surface with normal cleaning and disinfecting agents. The chemical resistance of the glass surface may vary depending on the concentration of the solution and the particular environmental conditions. We therefore recommend that you carefully check your cleaning and disinfecting agents to see how they affect glass surfaces.

INDIVIDUAL MODIFICATIONS

- Adding a Logo/Brand (1-4 colours)
- New country layout
- Individual GUI design
- Reducing the keyboard cable length
- Changing of the keytable (HID-Standard)
